REMARKS

The Examiner's indication that Claims 2-16 are patentable over the cited prior art on record and are allowable is gratefully acknowledged. The application has been amended to place it in a full condition for allowance.

Claims 2, 11, 12, 13 and 16 have been amended into independent claims by incorporating all claimed features in Claim 1 which has been canceled. These amendments simply place change the form of the patentable claims as originally filed into proper form for allowance and thus do not narrow the scopes of these claims from their original form as initially filed with this application.

Non-elected Claims 17-20 have now been cancelled. In addition, Claims 21-23 have been newly added as dependent claims of Claim 16 based on the original specification. No new matter is added.

Claims 2-16 and 21-23 are now pending and are patentable over the cited prior art on record.

In the drawings, five replacement sheets of drawings are filed herewith to include changes to labeling of various elements in each drawing and to replace the five original sheets for FIGS. 1A, 1B, 2, 3, 4A, 4B, 5A, 5B and 5C. The changes made to the labeling do not add new matter.

Furthermore, the specification has been amended to correct typographical errors in paragraphs [0010] and [0011] where descriptions for drawings FIG. 2 and FIG. 3 were incorrectly exchanged. No new matter is added.

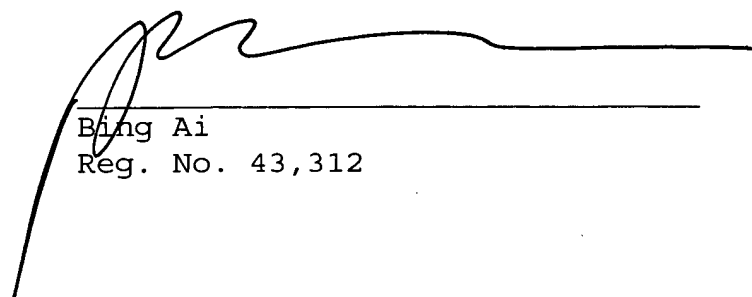

In view of the above, each of the rejections and objections to the application has been obviated. The application as amended is now in a full condition for allowance.

The Office Action further indicates that the filed inventor's declaration is defective due to a typographical error. A corrected and fully executed declaration is attached with this response.

Enclosed is a check for payment of \$200 for excess claim fees. Please apply any other charges or credits to Deposit Account No. 06-1050.

Respectfully submitted,
